## R A H M

### Weinberg Dolomiten Rot

#### Vineyard Notes

At an elevation of 260 meters above sea level, in one of the last remaining Lagrein-growing terrains of Gries in Bozen, the 80-year-old vines are rooted in a sandy clay porphyry alluvial soil with rocky sediments. Raised according to certified ecological principals, the vines are partially trained on pergolas and partially Guyot-pruned on espalier.

#### Vinification and Aging

Because of a delicate and careful processing and treatment of grapes in the cellar, varietal characteristics as well as local imprints of soil and rock are preserved in every bottle of our Rahm. The spontaneous fermentation in the large wood barrel happens in a natural and gentle manner. Organic acid reduction takes place in the tonneaus. Barrel storage of about 2 years.

#### Tasting Notes

Scents of cocoa, bitter chocolate and crushed elderberries govern the bouquet, while in the mouth, flavors of black berries, dark cherries and licorice dominate the taste, enveloped in firm and juicy tannins. Taste lingers on the palate with a nice long finish.

#### Pairing Ideas

A wine for romantic moments – a taste of indulgence. Delicious with dark meat and aged cheese, its elegant structure promises a sophisticated gourmet experience.

#### Certifications

Vino Biologico  
Agricoltura Italia

16°-18° C serving temperature

10 years cellar life
